REPORT
OF THE
SCHOOL BOARD OF GILMANTON
FOR 1892.

GENERAL REMARKS.

Owing to the decease of the chairman of the school board, there is no report of a few summer schools. The citizens will please pardon this unavoidable omission.

The schools for the past year have been conducted largely by teachers residing in town, a majority of them being students or graduates of Gilmanton Academy.

The terms have been short, owing to the limited amount of money raised by the town for school purposes.

Parents who wish to give their children a better education than they can attain in our public schools will act wisely if they patronize the Academy. There they have the best of instruction and many advantages which it is impossible for us to furnish. Now that we have so able an institution in our town, why not patronize it? Why send our children away to acquire an education when we have just as good privileges at home? Let each one who has children to send register his or her name at Gilmanton Academy, and I will grant at the close of the term ou will be pleased with their improvement.

REPORT OF SCHOOLS.

KELLEY DISTRICT NO. 1.

Summer term of eight weeks taught by Miss Georgia M. Griffin. In this school, reading received more attention than is customary in district schools. The blanks of the class in book-keeping were models of neatness and accuracy. From the primer to the most advanced class, the answers were correct and very prompt; hardly an incorrect statement during the examination.

Fall term of seven weeks taught by Miss Alice M. Ayer. This is a hard-working school, and a very easy one to govern. The scholars are eager to gain a thorough knowledge of the text-books furnished them. They are willing to obey the rules of their teacher; therefore nothing was left behind that would crown their efforts with success.

POTTER DISTRICT NO. 2.

Summer term of eight weeks taught by Miss Sadie M. Farrar. This is a very good school for improvement; it is composed mostly of advanced scholars who know the worth of an education, and spare no pains in making the greatest improvement possible.

Percentage of daily attendance, 71.

Number of visitors, 17.

Winter term of eight weeks taught by Miss Myra A. Morrill, of Rochester. In this district Miss Morrill made her second attempt to teach. She labors earnestly for the welfare of her scholars. She is always on the alert, ever ready to lend a helping hand to those in need of assistance, and explains her work thoroughly.

Owing to sickness your committee was unable to be present at the closing exercises, but those that were report a very successful term.

Percentage of daily attendance, 100.

Number of visitors, 25.

HALL'S HILL DISTRICT NO. 3.

Fall term of eight weeks taught by Miss Jessie N. Jones. This school appeared well at the beginning, but on account of sickness your committee was unable to be present at the examination. What advance was made I am not able to report.

Percentage of daily attendance, 90.9.

Number of visitors, 9.

DISTRICT NO. 5.

Summer term of eight weeks taught by Miss Alice M. Ayer. For several years past Miss Ayer has proved herself a very successful teacher. As a disciplinarian she cannot be excelled. She early gains by her ladylike manner the good will of her scholars, which makes it pleasant for both scholars and teacher.

Percentage of daily attendance, 93.33.

Number of visitors, 14.

Winter term of eight weeks taught by Miss Georgia M. Griffin. This school was not quite up to the standard. It seemed to lose the interest it has previously taken. The conveniences and pleasant surroundings of the schoolhouse are efficient aids to the scholars, but it must be remembered that the only way to acquire an education is by hard study. The rhetorical exercises were very good.

Percentage of daily attendance, 92.8.

Number of visitors, 20.

COGSWELL DISTRICT NO. 6.

Fall term of eight weeks taught by Miss Sadie M. Farrar. This school was interrupted by sickness, but good improvement was made throughout the entire school. The greatest improvement was by a class in grammar. This class completed Harvey's small grammar in six weeks, a very good result.

Percentage of daily attendance, 88.5.

Number of visitors, 16.

LOUGEETOWN DISTRICT NO. 7.

Second term of eight weeks taught by Miss Edith M. Page. Miss Page has had charge of this school before, and it will be a step in the right direction to secure her services again. Perfect order was maintained without any feeling of restraint. Whatever she asked them to do they did cheerfully ; therefore nothing but a good result could follow.

Percentage of daily attendance, 85.

Number of visitors, 14.

ALLEN'S MILLS DISTRICT NO. 8.

Two terms of eight weeks each both taught by Miss Mary A. P. Green. This is a small school but a school in which the teacher has had the full co-operation of all the pupils and their parents. consequently both terms were a grand success.

One of the school charts was placed in this school the second term and awakened quite an amount of enthusiasm. The examinations were very satisfactory, being both prompt and nearly perfect.

It seems only proper to note the fact that five pupils never missed a word in spelling for eight weeks, also the first classes in arithmetic, grammar, and geography did not miss a question in their daily recitations.

Percentage of daily attendance, 100.

Number of visitors, 54.

CORNER DISTRICT NO. 9.

Summer term of eight weeks taught by Miss Alice E. Abbott. The teacher seems to have gained the good will of her pupils and made this a profitable term. An advanced arithmetic and grammar class did especially good work.

The progress for the term was good throughout the school.

Number of visitors, 17.

Second term taught by Miss Lillian M. Eveleth. This was one of the largest if not the largest school in town, composed

of twenty-five small scholars with one or two exceptions. The teacher labored assiduously for the benefit of the pupils under her charge, and with good results. General satisfaction was expressed by those parents who were interested enough to attend the closing exercises or visit the school at any time previous.

Percentage of daily attendance, 86 36.

Number of visitors, 48.

ROGERS DISTRICT NO. 10.

It was found necessary to provide for four pupils in this district for the fall term, although for two or three years past the pupils have been provided for at other schools. One term of eight weeks was taught by Mrs. Laura E. Varney. Mrs. Varney is a successful and experienced teacher. She took a lively interest in her charge and the improvement was very decided. Especial interest was taken in writing, due, perhaps, to a reward offered for greatest improvement.

Percentage of daily attendance, 75.

Number of visitors, 3.

GALE DISTRICT NO. 11.

Second term of eight weeks taught by Miss Ninnie E. Nelson, who has had charge of this school for several terms. This is a difficult school for a lady to govern, but Miss Nelson proved herself equal to it, and as a result some very good work was done. From the primer to the most advanced class the answers were prompt, hardly an incorrect statement on any point during the examination. The term was complete in all its parts.

Percentage of daily attendance, 100.

Number of visitors second term, 13.

JONES'S MILLS NO. 13.

Summer term of eight weeks taught by Miss Lillian M. Eveleth. This is the second term Miss Eveleth has had charge of this school, and I think she has given satisfaction to all. A good progress was made by all. Order good.

Percentage of daily attendance, 85.71.

Number of visitors, 27.

Second term taught by Miss Emma S. Page. This was quite a large school, several coming in from other districts. A chart was introduced in this school this term, and the teacher reports excellent results from its use. Miss Page is a very conscientious teacher, and I feel sure she did all in her power to help her pupils in advancement. I regret to record a failure on my part to visit the school at the close, on account of bad weather.

Percentage of daily attendance, 84.61.

Number of visitors, 13.

GRIFFIN DISTRICT NO. 14.

This school for the past year has been under the instruction of young teachers.

Summer term of eight weeks taught by Miss Harriet E. Ham. This was Miss Ham's first effort, and I have no doubt that she did everything in her power to make the term a success. At the close the examination showed that she accomplished what she so earnestly desired. The scholars presented Miss Ham with a pair of vases as a token of their appreciation of her kindness toward them during the eight weeks in which she so earnestly labored for their good.

Percentage of daily attendance, 97.44.

Number of visitors, 13.

Second term of eight weeks taught by Miss Myra A. Morrill. Miss Morrill came to this school a stranger to our customs, yet some excellent work was done. She has a very good way of conducting her school, and under her instruction the scholars make a very good showing. General exercises were pleasing and valuable.

Percentage of daily attendance, 93.

Number of visitors, 25.

SANBORN DISTRICT NO. 16.

Summer term of eight weeks taught by Miss Edith M. Page. This is the teacher's second term in this school. She had already won the affection of her pupils, and she started them

along from where she had left them the previous term. The pupils apply themselves diligently to their tasks, and the result is very satisfactory to those interested in educational matters. The teacher is always on the alert to help any in need of help.

Percentage of daily attendance, 100.

Number of visitors, 25.

Second term taught by Mrs. Alice E. Langley. Mrs. Langley is a teacher of experience, always ready to help her pupils and I doubt not the school was a success under her care. Owing to a heavy rainstorm at the close I was unable to visit it.

Percentage of daily attendance, 100.

Number of visitors, 20.

LAMPREY DISTRICT NO. 17.

Summer term of eight weeks taught by Miss Emma S. Page. This was a very successful term; the order was good and improvement excellent. A prize was offered for the greatest improvement in writing. It excited quite a lively contest and quite a decided improvement was the result.

Percentage of daily attendance, 87.50.

Number of visitors, 12.

Second term taught by Miss Lillian Kendall. This was the teacher's first attempt at teaching and she worked with a will, determined to conquer all difficulties, and succeeded very well. A creditable advancement was made.

Percentage of daily attendance, 12.50.

Number of visitors, 5.

IRON WORKS DISTRICT NO. 18.

Owing to circumstances beyond our control, there is no report of Iron Works school, it now being in session, but before this reaches the eyes of the citizens it will probably be closed. Satisfactory reports have been received by the board.
